Desktop home menu

Leagues tab will take the user to a different menu where they can browse various leagues
My teams tab will take the user to their personal favorite teams where more info will be displayed
Font: Arial in all caps with white (#FFFFFF)

64px

LEAGUES   **SEARCH**   **MY TEAMS**

Fonts below will be the same as the headers (including color) but a smaller size

50px   60px

Used the same screenshot for each example of the game schedules but will be kept up to
date based on the users selected favorite teams with an option to scroll through their picks

Search bar will be for searching specific teams and leagues (will be same font but #bbbbbb color
